DETAILED ACTION

Oath/Declaration

1. The declaration filed on Oct. 14, 2003 is acceptable.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the feature "being provided with a groove in the bottom portion (of) each hinge, at least one magnetic article being provided in each said groove, a pad being provided at the bottom of each said magnetic article" as claimed in claim 1 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified

Art Unit: 2873

and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities: It appears that the term “each hinge” in page 7, lines 6-7 should read –each temple extension—because the drawing (Fig. 9) shows that the a groove 11 is provided in each temple extension of the primary eyeglass frame but not in each hinge. Otherwise, there is no groove is provided in each hinge.

Appropriate correction is required.

Claim Objections

4. Claim 1 is objected to because of the following informalities: It appears that the term “each hinge” in claim 1, lines 4 should read –each temple extension—because the drawing (Fig. 9) shows that the a groove 11 is provided in each temple extension of the primary eyeglass frame but not in each hinge. Otherwise, there is no groove is provided in each hinge.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The word “or” (claim 1, lines 4,9) render claim may be confusing because the hidden magnetic attachment structure cannot be between the hinge of the primary eyeglass frame and the bridge

Art Unit: 2873

of the auxiliary eyeglass frame. The word “specific” in lines 4,9 renders the claim indefinite because it is unclear whether the limitation(s) following the word are part of the claimed invention. See MPEP § 2173.05(d). It is unclear what does the applicant mean “the best” in claim 3?. It appears that the north and south poles of each said magnetic article are substantial in horizontal direction.

Regarding claims 4-5, the term “*the best*” is indefinite in the context of a limitation relating the characteristics of the claimed material to other material-“properties that are the best to those obtained with comparable” prior art material. It was not clear from the specification which properties had to be “the best” and how the best the properties would have to be to determined infringement issues. Further, there was no guidance as to the meaning of the term “*the best*”.

The remaining claim is dependent upon the above rejected base claim and thus inherits the deficiency thereof.

Allowable Subject Matter

7. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 2-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
